

# COMPANY INFORMATION

# OUR LEGACY

We have more than 20 years of professional experience in the field of CNC machine tool repair. Within this, our main field of expertise is turret head and gear repair, in which we have a uniquely broad experience.

In 2001, we concluded a cooperation agreement with Baruffaldi s.p.a., as a result of which we operate as an exclusive service partner on the domestic market. This cooperation enables us to provide our customers with the highest quality services in the field of turret head and CNC machine tools.

Thanks to our professional experience and development, we have continuously expanded our range of activities over the past two decades.

Over time, with 23 years of persistent work, we have always strived to continuously expand and develop our services for the benefit of our customers.

# OUR SERVICE PORTFOLIO

TURRET HEAD REPAIR

GEARBOX REPAIR

PLC PROGRAMMING

PARTS TRADE

CNC MACHINE TOOL RENOVATION

CNC MACHINE TOOL SERVICE

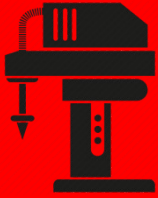

TRADE OF CNC COMPONENTS

PROTOTYPE / SPECIAL APPLICATION MACHINE PRODUCTION

TRADE OF USED CNC MACHINES

## REPAIR AND MAINTENANCE OF CNC MACHINE TOOLS

We undertake the on-site condition assessment, repair, renovation and modernization of various types of machine tools and other machines, adapted to the needs of our partners.

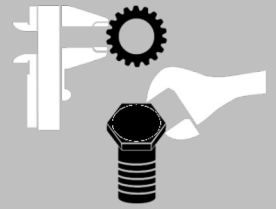

## REPAIR AND SALE OF TURRET HEADS / GEARBOX

Quick fixed-term repair of Baruffaldi and other turret heads with sales on demand. Professional repair of old and newer models with highly experienced colleagues.

## RENOVATION AND MODERNIZATION OF MACHINES

We undertake complete electrical and mechanical renovation of CNC machines, including control unit replacement if necessary. With fast deadlines and reliable references.

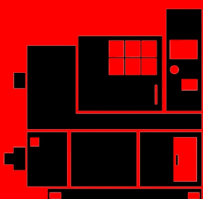

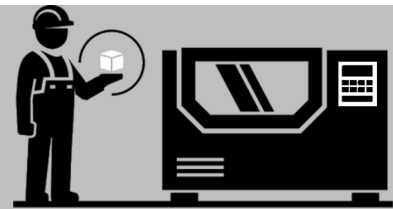

## TRADE OF USED MACHINES

Thanks to our wide network of contacts, we can find the right buyer for the used machines at our partners and find the right used machine tool for our customers.

## MANUFACTURE OF SPECIAL APPLICATION MACHINES

We undertake the manufacture of target machines according to customer requirements with CE certification.

## PLC PROGRAMMING

Programming and parameterisation of Fanuc and Omron, Schneider E. types. Fanuc robot programming.
